

Israel
5th-12th November 2006

During the peak birding season in the Hula Valley, when the migration season is at its height and the wintering species have already arrived, come and enjoy a great variety of activities: lectures, guided tours and identification workshops which will be held in the best birding sites in Northern Israel (Hula, Maagan Michael, Bet Shean Valley, Gamla...), by some of the best international experts:

Gull identification on the shores of the Mediterranean Sea - **Klaus M. Olsen**

Raptor identification in the field - **Dick Forsman**

Bird photography in the field - **David Cotteridge**

Identification of larks and Pipits lectures - **Per Alstrom**

Birding tours to the Western Negev and to the Northern Negev, will be arranged before and after the festival. Tours of general interest will also be arranged to important Christian-interest sites, the Sea of Galilee, the Upper Galilee and the Druze community, and also to Jerusalem.

Come and enjoy the amazing sight of tens of thousands of Cranes, thousands of Pelicans, a huge variety of raptors, waders, ducks and song birds!!
